Denmark

A Brief History

Denmark has a population of 5.83 million.

Once we were brutal Vikings. Now we are one of the world's most peaceful societies.

Kingdom of Denmark is a Nordic country in Northern Europe. Denmark proper, which is the southernmost of the Scandinavian countries, consists of a peninsula, Jutland, and an archipelago of 443 named islands, with the largest being Zealand, Funen and the North Jutlandic Island.

The islands are characterized by flat, arable land and sandy coasts, low elevation and a temperate climate. Denmark lies southwest of Sweden and south of Norway, and is bordered to the south by Germany. The Kingdom of Denmark is constitutionally a unitary state comprising Denmark proper and the two autonomous territories in the North Atlantic Ocean: the Faroe Islands and Greenland.

Denmark, has been named the world's happiest country on numerous occasions, and remains to be in the very top of the UN World Happiness Report.

The oldest flag in the world First acknowledged in 1219, the Danish flag "Dannebrog" remains the oldest state flag in the world still in use by an independent nation.

Turning 800 years has never looked better - and we'll celebrate it in true Danish birthday fashion: with a bunch of flags of course.
